

Camden local area special educational needs and disabilities (SEND) strategy 2022 to 2027

Progress report 2024

In 2024 we supported children and young people with SEND by

1 collecting information

We have found new information that helps us understand and fix problems

2 making partnerships

We worked with lots of people and groups including

- schools
- health professionals
- and therapists

③ focussing on early help

We ran programmes like Camden Kids Talk and Best Start for Baby

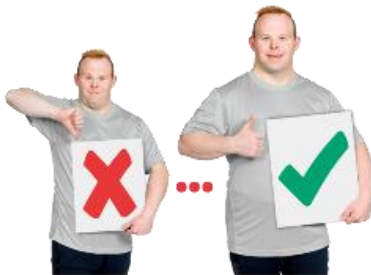

We quickly gave schools money for them to give early support

④ spending more money

We are spending more money to make our services better

- we spent **2.5** million pounds making schools more accessible

- we are spending **1.3** million pounds every year to make our SEND services better

- and we are spending **£625,000** every year to diagnose neurodiversity – this means conditions like autism, ADHD and dyslexia
